“As the Chief of Police of the Hamburg Police Department in New Jersey I could not recommended this program enough. As a firearms instructor I learned more in five days than I have learned since I became an instructor in 1995. I am shooting and instructing at levels that I could only dream of. As the Chief of Police who is in charge of maintaining a budget this class was tops. With minimal costs for the class and bullets it can not be beat. What I noticed most was that students quickly learned the concepts and were able to implement the new skills with minimal rounds. I shot less than 200 rounds to be proficient in the skills. I will now use the rounds saved to master my skills, not learn them. I will be sending my instructors to this program as soon as possible.” **Jan Wright, Chief of Police, Hamburg Police Department, NJ**
