

Ask: Shoot or Don't Shoot?

Explain: When someone is threatening you with a deadly weapon, and you have an opportunity to beat him, (as he turned away) it may be your only chance to defend yourself.

Explain: Although, if you **don't** have a high level of skill, you could be committing suicide by engaging in this situation.

Click: What's your level of skill? . . .

Explain: You would be "Justified" to shoot in this situation, but do you have the skill to beat this guy? Even if you would get off the first shot, doesn't mean that he won't have the ability to shoot back at you. The key is to be aware of your surroundings, and hopefully avoid such a situation.
